

P35 WDM

The DiBO P35 WDM is a safety vacuum cleaner (dust class M) with unique and patented filter cleaning system. This means sawing, drilling, cutting, milling and grinding work can be done efficiently and safely without hesitation.

Patented filter cleaning system:

- Patented HEPA 13 cartridge filter (1)
- Two independent filter chambers (2)
- Filter cleaning by reversing the air flow (3)
- Automatic filter cleaning every 45 seconds (4)

PRODUCT SPECIFICATIONS

- Ease of use: built-in power socket for connecting electrical tools.
- Ergonomic and easy to move with the handle and push bar.
- Collapsible handle resulting in a flat top side that can be used for seated breaks or as a surface for an optional toolbox adapter.
- Made of hard plastic with rounded corner protection.
- Locking brakes prevent the vacuum cleaner from rolling away.
- Integrated tool spanner for filter replacement
- Easy to clean blow-out filter.
- The extra-wide floor nozzle (450 mm) can be parked on the back of the appliance.
- Supplied with 2 stainless steel suction tubes.

STANDARD EQUIPMENT

Code	Item description
3.8023.118143	5 m flexible antistatic and oil-resistant suction hose Ø 38 mm
3.8023.102116	3 m flexible antistatic and oil-resistant suction hose with handle Ø 38 mm
3.8023.102018	0.5 m stainless steel suction tube Ø 38 mm (2 included as standard - reorder per piece)
3.8023.102031	1 fleece filter bag (reorder per qty. 5)
3.8023.118100	HEPA 13 Cartridge filter
3.8023.118138	Dust bag (reorder per qty. 5)
3.8023.102125	Floor nozzle for dry vacuuming (450 mm) Ø 38 mm
3.8023.102016	Crevice nozzle (240 mm)
3.8023.102017	Furniture brush, round Ø 75mm
3.8023.118122	Connecting piece Ø 21 / 25 / 32 mm
3.8023.118139	Connecting piece Ø 35 mm

TECHNICAL SPECIFICATIONS

- Dust class* M:
 - With maximum permeability of < 0,1 %
 - Suitable for dust with occupational exposure limit ≥ 0.1 mg/m³
 - Material: wood dust (beech, oak), paint dust particles, ceramic dust, plastic dust

(*) according to standard: IEC/EN 60335-2-69

- Patented filter cleaning system

- Suction power monitoring system: an acoustic and visual signal alerts the user when the required air flow rate is not reached. This prevents increased dust pollution in the air.
- Connecting pieces of different diameters supplied for connecting electrical tools with dust extraction. (\varnothing 21/25/32 mm 3.8023.118122) (\varnothing 35 mm 3.8023.118139)
