

CT71

The **CT71** is an innovative walk-behind scrubber drier designed to provide total control over the cleanup work and to ensure a hygienic environment. The ingenious design, which combines the positioning of the motor, insulation and air circulation, also ensures that the CT71 is very quiet in use.

The CT71 is the solution for a wide range of cleaning chores. Thanks to its compact design, manoeuvrability and height-adjustable lever, this machine adapts seamlessly to the wishes of each user. The self-adjusting system of the brush heads allows excellent cleaning results.

Note: Not all features are available for all product types.

PRODUCT SPECIFICATIONS

- Ergonomic : Drive Lever with innovative design allows the user to comfortably push / pull the operating lever from any position.
- User friendly : Full machine control thanks to an intuitive central knob.
- Ecological and economical : Two pre-setting programs.
- Brush, blades and suction hoses replacement without tools.
- Red bristle indicates when brush replacement required.
- SLS (Self Leveling System): Self-levelling mechanical system for an always perfect adherence between brush and floor.
- Eco select:
 - Up to 20% less energy, water, and chemical use;
 - Increase running time up to 20%,* Reduced noise level to 2 dB (< 54 dB)
- DBL (Double Battery Life): Optimized charging cycles → Recharging only when required. Extended battery life up to 100%.
- ANC (Advanced Noise Control): Silent → Thanks to the ANCTM an extremely advance study combining vacuum motor positioning, isolation and separated air flow. The result is extreme machine silence.

TECHNICAL SPECIFICATIONS

• Motor

- ANC: Advanced Noise Control is an extremely advanced study combining vacuum motor positioning, isolation and separated air flow. The result is extreme machine silence. Lower noise levels (down to 54 dB) are available when Eco select mode is activated.
- Eco select: Less energy use, higher productivity and reduced noise level.

• Batteries

- DBL (Double Battery Life): optimizes charging cycles and increases battery life up to 100%. Recharging optimizes only when required. Extended battery life up to 100%.

• Maintenance

- Squeegee blades: made in Latex usable on 4 sides.

- Memory card: Your maintenance completely under control. Service assistance management met SD-card. Aan de hand van de machine parameters is het makkelijk de service onder controle te houden en het onderhoud in te plannen.
- **Display:** User friendly, displays all information as follows:
 - battery charge capacity
 - hour meter
 - operating program settings
 - waterflow level settings
 - brush pressure level settings(only with XP-version)
 - Adjustable speed settings (BT-version)
